

River Legacy Park Directions

To River Legacy Park itself:

Located at 701 NW Green Oaks Blvd. in North Arlington.

From I-30, take the Cooper Street exit and go north on Cooper. After a mile or two, Cooper will dead end into Green Oaks Blvd. Turn left onto Green Oaks. There will be a traffic light (Margaret) less than a block west of Cooper on Green Oaks. Turn right into the park entrance.

Legacy Pavilion Area:

Once you turn into the park entrance, you will drive until you reach the first left turn. There will be a sign that indicates you turn left for the picnic areas and playground. Turn left. Drive past the picnic table area and the playground. Follow this road until it dead ends at the parking lot just before the large Legacy Pavilion.

Wildflower Area:

Once you turn into the park entrance, you will continue straight past a parking lot on your right. You will come to a street to the left and a sign that indicates you continue straight for the concessions and restrooms. Continue straight. When you come to the next parking lot on your right, pull in there. This parking lot is just before the wildflower area. If you miss this parking lot, or if it is full, then continue on straight and you'll pass a wood fence on your right and a sign that says Wildflower Area and a parking lot on your left. You may also park in this parking lot and just walk back to the grassy area in front of the previous parking area.
